

WHAT IS CLAIMED IS:

1. A billiard cue, comprising:
 - 5 a shaft having a chamber therein;
 - a bar detachably mounted in the chamber, and
 - 10 a weight adjuster movably mounted on the bar and fixed at positions of the bar.
- 15 2. The billiard cue as claimed in claim 1, wherein the bar has a thread thereon and the weight adjuster has a first weight device having a thread hole to be screwed onto the bar.
- 20 3. The billiard cue as claimed in claim 2, wherein the first weight device of the weight adjuster has a cone end, a butt end and a cone slot at an end of the thread hole at the butt end.
- 25 4. The billiard cue as claimed in claim 2, wherein the first weight device of the weight adjuster has an annular pad on a periphery thereof.
5. The billiard cue as claimed in claim 1, wherein the bar has a thread thereon and the weight adjuster has two first weight devices and at least a second weight device, wherein each of the first weight devices have a thread hole to be

screwed onto the bar and the second weight device had a through hole to be fitted onto the bar and rested between the first weight devices.

6. The billiard cue as claimed in claim 5, wherein the second weight device
5 of the weight adjuster has a cone end, a butt end and a cone slot at an end of the through hole at the butt end.

7. The billiard cue as claimed in claim 5, wherein the second weight device of the weight adjuster has an annular pad on a periphery thereof.

10

8. The billiard cue as claimed in claim 1, wherein the shaft has a thread hole at a bottom of the chamber and the bar has a thread thereon to be screwed into the thread hole.

15

9. The billiard cue as claimed in claim 1, wherein the bar is provided with a stem at an end thereof wherein the stem has a plug portion to be inserted into the chamber and a handle left out of the chamber.
